Preventing fire tragedies and disasters from happening in Institutes, is the most important issue that a Institute must address secondary to its academic mission. An Institute must always be a fire safety place for our students, fire safety measures, fire devices, fire drills, fire exits, fire escapes fire alarms are just components of a good fire safety measures. Fire tragedies and disasters can be prevented if proper fire safety measures are in place and religiously implemented.

We must ensure that the :

- Fire drills and evacuation plans must be practiced regularly; (once a month is an ideal interval).
- Fire alarms and smoke detectors must be present at all levels of the premises.
- Fire devices such as, fire extinguishers, sprinklers, fire hoses must be always in good working condition. Regular maintenance for these devices is a must.
- Fire exits, egresses must always be free from any obstruction that can hinder fast flow of evacuation in case of fire break out. Exit signs must always be posted properly.
- Responsible personnel must have adequate training in handling fire devices such as fire extinguishers, fire hoses to apply initial remedy in case of starting fire break outs.
• Fire safety signs especially / exit signs must be conspicuously located at all levels of the premises especially those pointing to fire exits; in cases of complex buildings, site maps leading to exits must be posted on the walls or appropriate sites.

• Elevators must not be used during fire break outs as these may get stuck in between floors if power supply is cut during fires.

**To have an effective Fire Fighting system, the instructions listed below need to be strictly complied with:**

a) Every fire extinguisher be stamped with the date of filling. This can also be done by allotting serial numbers to each extinguisher and keeping a record in the office.

b) A fire chart be displayed in admin mgr's office, depicting the location of each fire extinguisher and fire point. Fire exit markings must be affixed at vantage points for easy exit in case of fire.

c) Provisioning of fire beaters, buckets and sand fire points.

d) Fire practices must be carried out monthly and a record kept of the same in a fire fighting register. This record must show the numbers of individuals who attended the fire practices. After the event, all hoses/ coupling must be duly lubricated.

e) The lift must have an extinguisher inside and a marking outside the lift door on every floor "DO NOT USE THE LIFT IN CASE OF FIRE".

f) Practice evacuation drills once in three months.

h) To prevent incidents of transformer fires, following must be done;

   • Check leakage of transformer oil once in a month. Campus electrician will be responsible for the same.
   • For transformers placed on the ground, these must be cordoned off to prevent access by putting barbed wire all around at 3 feet distance. Evolve drills in the campus to ensure that all ACs/ electrical appliances are switched off. Paste a neatly written notice in each faculty cabin/ office stating "PLEASE SWITCH OFF THE AC EVERY TIME YOU MOVE OUT"

k) In areas of mass usage, such as library, conference halls, computer labs, bigger class rooms, auditorium etc. implement the system of one switch controlling multiple lights.

l) In kitchens/ areas of cooking, the gas cylinders will be kept well outside and only a gas pipe would be allowed ingress to the kitchen.

**Type of checks practiced in IILM campuses:**

**CCTV Surveillance**

CCTV is an important tool towards ensuring security in a school/institute campus. IILM has put in place CCTV surveillance system in all its campuses. College campuses pose many unique challenges when it comes to security. A video surveillance system must be carefully planned out in order to keep watch over the diverse assortment of facilities that comprise a typical campus community. From dormitories and libraries to sports complexes and sprawling student grounds, there's a lot to look after. Our CCTV surveillance system goes a long way in ensuring the safety of students, faculty, and facilities on campus.

**Benefits of campus surveillance equipment**

**Maintain secure facilities** – College campuses feature a variety of buildings, each with their own security needs. Campus security cameras help to secure these facilities, watching for suspicious behavior and unauthorized access.

**Protect students** – Students have to cover a lot of ground when navigating their way through campus. This often involves traveling by foot, and sometimes the journey takes place late at night. Video surveillance is an invaluable tool, allowing students to wander under the safe watch of campus security cameras.
Deter crime – Campus security cameras can serve as a visual deterrent to crime such as theft and break-ins.

Prevent vandalism – With proper campus security cameras, the threat of vandalism to Institute property is lessened.

Monitor parking lots – Security cameras can prevent and deter criminal activity and theft in parking lots throughout a campus community. Footage from cameras throughout the campus can be viewed online from any computer with an internet connection and access to the network.

Manual - the uniformed staff maintains a high profile while patrolling the campus their presence acts as positive deterrent against potential criminal actions

Equipment – this involves all physical equipments that have been installed to enhance security effectiveness, such as fencing, gates, CCTV.

Education - We through regular communication with the community as well as meetings and workshops with students and staff, strive ensure that there is awareness of security issues, and also provides on how to deal with various situations

Enforcement - in extraordinary circumstances the inspection committee is empowered to take whatever appropriate action is necessary to maintain order and security on campus.

Crime Prevention

The best way for students and staff to prevent crime is to be aware of their surroundings and particularly the people in their environment. Students and staff are encouraged to be alert for suspicious persons in and around campus buildings and in parking areas.

They should ask themselves questions such as :-

- Are they new faces and hanging around for no apparent reason?
- Are they looking into cars as they walk through the parking areas?
- Are they from going from room to room finding something unusual?
- Are they carrying valuable property from buildings after normal working hours?

If they suspect anything, they should call the Admin/Security Head.

Protecting your Property

• Never leave access doors open.
• When storing a purse or a wallet in the office, lock it in a seldom-used filling cabinet.

• Engrave your property. Never leave items on display inside your car while it is parked.
• Invest in a steering wheel or gear-lock.
• Lock your door and windows even when leaving the room for a short time.

**In residence**
